THE INFERNO GROUP
LLC
STRATEGIC PLANNING & GOVERNMENT PROCUREMENT

CAPABILITY STATEMENT

EMERGENCY MANAGEMENT & DISASTER RECOVERY

PREPAREDNESS | RESPONSE | RECOVERY

MISSION-READY. COMPLIANCE-DRIVEN. BUILT TO SCALE.

The Inferno Group LLC (TIG) is a HUBZone-certified, veteran-owned small business delivering emergency preparedness, disaster response, and recovery support to public-sector clients and prime contractors. We pair disciplined program management with mission-ready personnel and qualified partners to turn emergency management requirements into compliant, accountable, on-time delivery.

- HUBZone Certified
- Veteran-Owned Small Business (VOSB)
- E-Verify Employer

CORE COMPETENCIES

Emergency Management & Preparedness
Emergency and continuity plans, training and exercises, operational readiness, and incident management support that strengthen readiness before an event occurs.

Disaster Response & EOC Support
EOC augmentation, planning, logistics and operations support, resource coordination, and rapid surge staffing that sustains operations when demand peaks.

Disaster Recovery Program Support
FEMA Individual Assistance and Public Assistance support, recovery case management, grant documentation, and hazard-mitigation program support that keeps recovery funding compliant and defensible.

Debris Monitoring & Field Documentation
Debris monitoring, field records, and quality checks that produce audit-ready documentation and support recovery accountability.

Disaster Contact Center & Case Operations
Survivor support, escalation handling, case tracking, quality assurance, training, and supervisory support delivered to consistent service standards.

MISSION-ALIGNED NAICS

541611 Administrative Management and General Management Consulting Services
Recovery program management and administrative support.

541690 Other Scientific and Technical Consulting Services
Emergency management technical advisory support.

624230 Emergency and Other Relief Services
Disaster survivor assistance and relief support.

KEY DIFFERENTIATORS

Full Disaster Lifecycle Support
Preparedness, response, recovery, and operational sustainment delivered through one coordinated model, with fewer handoffs between phases.

Scalable Cadre & Partner Network
Mission personnel and qualified professional-service partners who scale up or down as requirements evolve.

Compliance Built Into Delivery
Documentation, reporting, quality assurance, and performance controls embedded in every task rather than added afterward.

Flexible Prime / Subcontract Teaming
Core management led by TIG and complemented by specialized partners wherever the mission calls for them.

LEADERSHIP EXPERIENCE

TIG's leadership brings hands-on experience in emergency management, disaster recovery, and public-sector program operations, including FEMA Public Assistance and hazard-mitigation environments, contact center leadership, and quality assurance.

Experience reflects leadership background; entity-level past performance is presented only when separately documented.

TARGET TEAMING OPPORTUNITIES

TIG welcomes teaming with primes and partners on:

- Emergency planning and preparedness
- Response staffing and EOC augmentation
- FEMA IA / PA recovery support
- Debris monitoring and field documentation
- Disaster case management, QA, and training
